### **Don't buy, rent**

We want to make sure that used routers and media receivers don't just end up in the trash. That is why we promote the "Don't buy, rent" approach. Our rental services conserve resources and reduce electronic waste, thus cutting CO2 emissions. When a contract is canceled, the customer returns the devices, which are then either refurbished and rented out again or professionally recycled. We have simplified the return process by introducing a returns portal. We advertise our rental service actively and successfully. The offer has been well received by our customers

the number of people using the rental service increased to just over 11,65 million by the end of 2022.
