

**LIFE IS FOR SHARING.**

## **Telekom CR-facts**

### **Volunteer Readers**

In a joint project Deutsche Telekom Stiftung and German Reading Foundation aim to awaken children´s interest in math and science and improve their language and reading skills by reading aloud to them. Appropriate reading materials (books, apps, e-books) are read aloud by volunteer readers to kids aged three to ten in kindergartens, primary schools and libraries. By late 2019, a total of around 2,700 volunteers engaged as volunteer readers in Germany and abroad- including 100 Deutsche Telekom employees (as of November 2019.)
