In Germany, 14 percent of employees under collective agreements and 18.5 percent of civil servants at Deutsche Telekom took advantage of part-time models (as at December 31, 2019). In addition, a total of 29 executives throughout Germany were working part-time (as at December 31, 2019).
All skills and abilities required and useful in effectively enacting the responsibilities of a position are taken into consideration during the selection process. The requirements of a position are identified using a skills list. The selection process is conducted by the Supervisory Board, which acts in the interests of stakeholders and shareholders.

Stakeholder engagement

There was no cause to restate information within the reporting period. There were no changes in reporting in the reporting period.

GRI 205: ANTI-CORRUPTION

GRI 103: Management Approach

103-1 103-2 103-3 Explain why the topic is material and provide its boundary. Explain how the organization manages the topic. Explain how the organization evaluates the management approach.

As an ICT company, Deutsche Telekom works with suppliers worldwide. That is why we do not have Group-wide policies giving priority to local suppliers at our locations.

The following risks of corruption were identified as the most likely within the scope of our risk analysis:

1. Acceptance of a benefit in connection with a specific business decision (e.g., a supplier invites an employee to a prestigious sports event, where there is a close material and temporal correlation between the event and the upcoming renewal of an existing agreement).

2. An employee formulates selection criteria in favor of one supplier/consultant. Procurement has no choice other than to include this supplier/consultant in its selection. Alternatively, an employee influences an auction/tender in favor of one bidder. In return, the employee receives a benefit from the supplier/consultant.

3. An employee makes an agreement with a supplier to add 10 percent to a bill. The supplier pays half of the extra amount charged into a private bank account of the employee.

4. A benefit is granted to a business partner’s employee or representative in connection with a specific forthcoming business decision in order to gain an unfair competitive advantage (e.g., inviting a decision-maker on the customer side to a prestigious sports event in order to sway them into renewing the existing framework agreement that is coming up for renewal).

5. An employee awards a contract in return for something without first obtaining a comparative bid from a competitor, which represents a breach of duty. It makes no difference whether or not the competitor’s bid would actually have been lower.

Each year, we carry out a Group-wide compliance risk assessment (CRA) to determine compliance risks and develop tailored compliance measures. In 2019, the CRA included 80 companies and thus covered around 97 percent (based on the number of employees).

GRI 205: ANTI-CORRUPTION

GRI 103: Management Approach

103-1 103-2 103-3 Explain why the topic is material and provide its boundary. Explain how the organization manages the topic. Explain how the organization evaluates the management approach.

- Management & facts > Strategy > Compliance > Holistic compliance management system

205-1 Total number and percentage of operations assessed for risks related to corruption and the significant risks identified

The following risks of corruption were identified as the most likely within the scope of our risk analysis:

1. Acceptance of a benefit in connection with a specific business decision (e.g., a supplier invites an employee to a prestigious sports event, where there is a close material and temporal correlation between the event and the upcoming renewal of an existing agreement).

2. An employee formulates selection criteria in favor of one supplier/consultant. Procurement has no choice other than to include this supplier/consultant in its selection. Alternatively, an employee influences an auction/tender in favor of one bidder. In return, the employee receives a benefit from the supplier/consultant.

3. An employee makes an agreement with a supplier to add 10 percent to a bill. The supplier pays half of the extra amount charged into a private bank account of the employee.

4. A benefit is granted to a business partner’s employee or representative in connection with a specific forthcoming business decision in order to gain an unfair competitive advantage (e.g., inviting a decision-maker on the customer side to a prestigious sports event in order to sway them into renewing the existing framework agreement that is coming up for renewal).

5. An employee awards a contract in return for something without first obtaining a comparative bid from a competitor, which represents a breach of duty. It makes no difference whether or not the competitor’s bid would actually have been lower.

Each year, we carry out a Group-wide compliance risk assessment (CRA) to determine compliance risks and develop tailored compliance measures. In 2019, the CRA included 80 companies and thus covered around 97 percent (based on the number of employees).

205-2 Communication and training on anti-corruption policies and procedures

We use regular training measures to inform and raise awareness among our employees about compliance. In addition to classroom courses, we also use various interactive e-learning formats. In addition, customized classroom courses on compliance and anti-corruption are given to members of the management boards and executives. Managers are addressed about their extraordinary responsibility and informed about trends and changes in the law.
### E-learning training in Germany
In 2019, more than 22,000 employees in high-risk positions (sales, procurement) in Germany completed the anti-corruption e-learning course; around 3,800 employees received a certificate for completing a compliance e-learning course; 41,000 employees participated in an e-quiz on gifts, and 609 employees took the e-learning course on consultant services. A total of 569 employees completed the e-learning training on anti-trust law.

### Implementation of Group policy throughout the Group
Deutsche Telekom has introduced the Group Policy on Avoiding Corruption and Other Conflicts of Interest, which sets out the relevant responsibilities and duties and includes a list of possible conflicts of interest. We also introduced our Group Policy on Accepting and Granting of Benefits, which clearly specifies which benefits may be granted to and accepted from business partners. Both policies have been rolled out and communicated throughout the Group and approved by the managing boards at the various companies.

### Providing information and training to business partners
Our business partners are required to accept the Deutsche Telekom General Terms and Conditions for Purchasing before entering into a business relationship with us. These include a Supplier Code of Conduct incorporating our principles for avoiding corruption. In addition, we ask our business partners questions regarding their compliance management systems as part of the supplier self-assessment process. Deutsche Telekom has been offering online compliance training to external business partners and suppliers since September 2014. The training particularly focuses on small and medium-sized German business partners and suppliers. This encourages our partners even more to conduct their business ethically and in compliance with relevant laws and regulations. The training addresses specific compliance-relevant topics such as corruption prevention, anti-trust law, and sustainability and introduces Deutsche Telekom’s compliance management system.

- **205-3 Confirmed incidents of corruption and actions taken**

Deutsche Telekom engages in extensive compliance management activities to prevent and fight corruption. Any violations we uncover during our investigations are punished appropriately. In some cases, employment relationships have even been terminated for good cause. The total number of sanctioned incidents of corruption is confidential.

The number of employees entering retirement, an important component of natural employee churn, is not recorded within the scope of the annual workforce structure report. We therefore cannot provide a breakdown of natural churn according to gender and age. The time and effort involved in more detailed data collection would exceed any insights gained.

**GRI 403: OCCUPATIONAL HEALTH AND SAFETY**

**GRI 103: Management Approach**

- Management & facts > Social > Occupational health and safety > Our approach to health and occupational safety

We have created different steering levels at Deutsche Telekom in Germany to implement our occupational health and safety management activities.

- The first level is the Central Health Working Group, comprised of employer representatives from the Group and Group companies as well as employee representatives, occupational health and safety experts, and representatives of employees with disabilities.

- The second level comprises the Health Working Groups at Deutsche Telekom subsidiaries in Germany.

- The third level is comprised of local, on-site working groups responsible for implementing occupational health and safety management locally; there are at least 110 of these.

The national companies are responsible for their own occupational health and safety management. However, all Deutsche Telekom employees have gradually been included in a certified health, safety, and environmental management system based on the international standards ISO 45001 for occupational health and safety and ISO 14001 for environmental management that safeguards Group-wide standards. One hundred percent of our employees in Germany and 99 percent of our employees outside of Germany have occupational health and safety and environmental protection certificates (as at December 31, 2019).

<td>Departure from the company and career perspectives: Depending on the situation, we use various tools to help affected employees leave their job at the Group in a socially acceptable manner. This includes options such as outplacement consulting and severance payments. In addition, Vivento, the service provider for staff restructuring in Germany, offers assistance to civil servants when transferring to a public-sector employer. In many cases, the job change can be accompanied by financial incentives. In 2019, as in previous years, Vivento’s job portal <a href="http://www.interamt.de">www.interamt.de</a> offered civil servants appropriate posts at national, regional, and local level. The Post/Telexmien welfare service offers seminars on “Getting ready for retirement” in which Deutsche Telekom employees are invited to participate. Participants work on ways in which they will be able to fill their retirement years with meaningful activities and enjoy their retirement for years to come.</td>

</tr>
</tbody>
</table>

We use various tools to assess the performance and career development of our employees.
- “Compass” for employees covered by collective agreements and civil servants in Germany
- “Lead2Win” for managers in executive positions worldwide, employees not covered by collective agreements in Germany, and employees of national companies
- PPR4ALL (Performance & Potential Review) in T-Systems International countries

Our performance management is currently undergoing further development, with a clear focus on feedback discussions and transparency meetings.

Performance management tools and employee category & number and proportion of employees whose performance and career development are assessed

- Compass (employees covered by collective agreements in Germany): approx. 67,000 employees (81 percent of target group)
- Lead2Win: number and proportion to be determined in Q1 2020, process period > 12 months
- Performance & Potential Review (T-Systems International): approx. 16,000 employees (91 percent of target group)

In each case, the performance management tools apply for entire employee groups and therefore employees of any gender in equal measure.

GRI 405: DIVERSITY AND EQUAL OPPORTUNITIES

GRI 103: Management Approach

103-1, 103-2, 103-3 Explain why the topic is material and provide its boundary. Explain how the organization manages the topic. Explain how the organization evaluates the management approach.

Management & facts > Social > Diversity > Our approach to diversity and equal opportunities

405-1 Diversity of governance bodies and employees: Percentage of individuals within the organization’s governance bodies in each of the following diversity categories: gender, age group, other indicators of diversity where relevant (such as minority or other vulnerable groups)

Management & facts > Social > Diversity > Commitment to increasing the proportion of women
Management & facts > Social > Diversity > People with a disability
Management & facts > Social > Demography and company pension scheme > Age structure

Deutsche Telekom is an international corporation that is only represented by a majority interest in some of its national companies. For that reason it is not possible to break down these values based on employee category.
We have been comparing the pay of male and female employees for several years now. We were unable to identify any significant gender-based differences in pay for our employees in Germany. In the past, studies (e.g., Logib-D) confirmed that women and men who do the same job receive the same pay. It was not possible to record the pay of our male and female employees at all of our international locations due to data unavailability, relevance to competition, and the time and effort involved.

GRI 406: NON-DISCRIMINATION

GRI 103: Management Approach

103-1, 103-2, 103-3 Explain why the topic is material and provide its boundary., Explain how the organization manages the topic., Explain how the organization evaluates the management approach.

- Management & facts > Social > Human rights > Our approach to protecting human rights
- New way of working > Human rights > Human rights page

GRI 407: FREEDOM OF ASSOCIATION AND COLLECTIVE BARGAINING

GRI 103: Management Approach

103-1, 103-2, 103-3 Explain why the topic is material and provide its boundary., Explain how the organization manages the topic., Explain how the organization evaluates the management approach.

- Management & facts > Social > Human rights > Our approach to protecting human rights
- New way of working > Human rights > Human rights page

To our knowledge, there are no cases of this nature. Deutsche Telekom recognizes the fundamental right to freedom of association and the right to collective bargaining within the scope of national regulations and existing agreements. These principles form an integral part of the Code of Human Rights & Social Principles, are binding for the entire Group, and must be confirmed in writing annually by the Group companies. We likewise expect our business partners and suppliers to comply with these principles as long as they do not contradict national legislation.

GRI 409: FORCED OR COMPULSORY LABOR

GRI 103: Management Approach

103-1, 103-2, 103-3 Explain why the topic is material and provide its boundary., Explain how the organization manages the topic., Explain how the organization evaluates the management approach.

- Management & facts > Social > Human rights > Our approach to protecting human rights
- Good stewardship > Supply Chain > Supply chain page
- Management & facts > Economy > Suppliers > Our approach to sustainable procurement
- Management & facts > Economy > Suppliers > Improving sustainability in the supply chain

409-1 Operations and suppliers at significant risk for incidents of forced or compulsory labor, and corrective actions taken

Risks related to forced labor are combated by auditing selected strategic and particularly high-risk suppliers. No significant risk of forced or compulsory labor was identified at our direct business facilities.

GRI 412: HUMAN RIGHTS ASSESSMENT

GRI 103: Management Approach

201-3 Defined benefit plan obligations

- Management & facts > Social > Demography and company pension scheme > Company pension schemes

### GRI 306: EFFLUENTS AND WASTE

**GRI 103: Management Approach**

103-1, 103-2, 103-3 Explain why the topic is material and provide its boundary., Explain how the organization manages the topic., Explain how the organization evaluates the management approach.

- Management & facts > Environment > Circular economy & resource efficiency > Our approach to resource conservation and environmental protection
- Management & facts > Environment > Our environmental program > We care for our planet
- Management & facts > Environment > Waste management & recycling > Waste reduction and recycling

306-2 Waste by type and disposal method

Deutsche Telekom has a Group-wide waste management policy in place (e.g., for recycling copper) to handle the major types of waste produced by its business activities. We also use our Used Mobile Device Collection ESG KPI to determine the relationship between the number of mobile devices such as smartphones and tablets brought to market and the number returned to us (returned mobile devices in thousands / number of mobile devices brought to market in millions). Functional devices are reused, which gives them a longer life span. Cell phones that are no longer functional are properly recycled in an environmentally friendly manner. Data collection regarding disposal methods is complex, and the amount of time and work involved could not be reasonably justified based on the benefit this type of data collection would bring.

We comply with all legal requirements in all countries when disposing of hazardous waste.

We are a service provider with low amounts of effluents as a result. We don’t collect data on effluents, as the amount of time and work involved could not be reasonably justified based on the benefit this would bring.

### GRI 308: SUPPLIER ENVIRONMENTAL ASSESSMENT

**GRI 103: Management Approach**

103-1, 103-2, 103-3 Explain why the topic is material and provide its boundary., Explain how the organization manages the topic., Explain how the organization evaluates the management approach.

- Management & facts > Economy > Suppliers > Our approach to sustainable procurement
- Management & facts > Economy > Suppliers > Supply chain management
- Management & facts > Economy > Suppliers > 2019 audit results

308-1 Percentage of new suppliers that were screened using environmental criteria

In 2019, compliance with social and environmental criteria was verified for 81 percent of our suppliers (Sustainable Procurement ESG KPI). This verification will also be carried out for all future suppliers. Of our 200 most important suppliers in terms of procurement volume, we verified compliance with sustainability criteria (CR-Qualified TOP 200 Suppliers ESG KPI) for 87 percent in 2019. In addition, 63 percent of our purchases from emission-intensive suppliers were covered by the CDP Supply Chain Program (CDP Supply Chain Coverage ESG KPI) in 2019.

308-2 Significant actual and potential negative environmental impacts in the supply chain and actions taken

- Management & facts > Economy > Suppliers > 2019 audit results

### GRI 408: CHILD LABOR

**GRI 103: Management Approach**
